

THE SUN CHRONICLE

Put a fresh face in state Senate

To the editor:

I have never been so taken by a candidate in all my years of voting, until I met Sara Orozco.

Sara is such an inspiration for our future.

She truly listens and understands. Sara has worked extremely hard for many years to get to where she is now.

She was born into a family who worked very hard to make ends meet. I want to see her sitting in the Senate and know that I, or anyone who has an issue, can call or write her and she will be there to listen, understand and do her best to right any wrongs.

She has 20 years of health experience. She will fight for high quality, affordable health care for those in need. There are many people without not only medical care, but housing also.

This has to change and I know Sara will work hard to make it possible for these unfortunate people to rise from the streets and rise to a better life with medical care, jobs and hope.

Sara also supports reproductive freedom and marriage equality. For some this is a real and very important issue. We must learn to respect all facets of life, liberty and the pursuit of happiness for all.

I ask you all, as a single, lower/middle class, working woman, to cast your vote for Sara Orozco and end years of the same old, same old.
